Dear Supporters and Friends,
In light of the positive change in the political situation in Ethiopia, the Amara Survival for Ethiopia's Unity Organization (ASEUO) will be participating in the peaceful building of a strong democratic process in Ethiopia. ASEUO's goal is to bring about a fair representation of the Amara people in Ethiopian politics with the firm belief that the future of Ethiopia is richer if all ethnic groups that makeup our multi-cultural and multi-lingual country are represented fairly.

To achieve this objective, ASEUO has committed itself to organize at a grass root level within the Amara region in Ethiopia in preparation for all levels of political representation by establishing offices in several regions. We will pursue a path that includes:

Educating the people to understand the rights and responsibilities of the process of democracy in their context,

Realizing that every human being irrespective of gender, age, ethnic makeup or religion observed is a valuable member of Ethiopia.

Supporting a process that values peaceful and mandate-driven processes to elevate the lives and expectations of all Ethiopians.

We are asking all Ethiopians, our friends and supporters of Ethiopia of any citizenship, ethnic background and of all the religions observed in our country to help us realize a peaceful and sustainable positive change. We plan to establish a minimum of thirteen branch offices in Ethiopia to help bring about this change. The offices will be the nerve center for the embodiment of the aspirations of people of Amara origin as we seek to better the lives of our brothers and sisters as we embark on a democratic future. The offices will be setup to provide relevant information and education to constituents in their respective areas. The needs and aspirations of the constituents in each area will also be channeled via the regional offices to Ethiopians in the country and Ethiopians and our friends in the diaspora.
